

functions of MIANR may not be expended for that purpose. Provided, however, that the funds hereby restricted may be transferred by approved budget amendment to the School of Veterinary Medicine at the University of Maryland at College Park so long as this transfer is initiated not later than July 15, 1993. Provided further that these funds are contingent upon enrollment of 30 first year full-time equivalent Maryland students in academic year 1993-1994. It is the intent of the General Assembly that no reduction shall occur in the level of field service or in the 4-H and agricultural programs administered by MIANR under this provision......

	11,985,469	
	11,465,865	
	11,985,469	
Current Restricted Appropriation .....	3,830,900	15,816,369
		15,296,765
		15,816,369

It is the intent of the committees that \$519,604 shall be reduced in the cost of administrative functions in MIANR, as significant funds are potentially available from the merger with the University of Maryland College Park. In the event the Board of Regents of the University of Maryland System decides to merge the programs of the MIANR, no reductions will occur in the level of field service or in the 4-H and agricultural programs. No special funds shall be substituted for the reduction in general funds with the exception that College Park may absorb those costs upon merging with MIANR.
